

It Just Works!

The combination of an Intuitive & Flexible Software with a Unique Implementation Strategy and Innovative Support, provides a proven solution that "Just Works."

Complete EHR Solution

The iMedEMR Solution encompasses software, implementation & on-going services. Our software is developed in-house which provides flexibility to customize the system for each unique practice, and often for each individual physician. Our "Intimate" Support model results in quick, efficient issue resolution to reduce stress in the clinic environment.

- Software Developed In-house (Flexibility)
- Unique Execution Strategy (Success)
- Personalized Support (Relationship)
- Multi-Specialty/Primary Care, Surgery, etc.
- Interfaced with many Industry Systems
*Labs, Corner, McKesson, Imaging ...

Meaningful Use Program

iMedEMR is "Meaningful Use" Certified; allowing practices to gain access to incentives provided through the ARRA.

Ask us how we can help your practices qualify for between \$44K and \$63K per physician.

iMed offers a meaningful use program that focuses primarily on the stage 1 MU requirements. Introduced with no upfront costs and a low subscription rate, the program facilitates rapid attainment of initial incentive reimbursements. These funds can then be used for transition to a complete EHR solution.

iMed Commitments

- NO UP-FRONT SOFTWARE COST ...
- LOW MONTHLY SUBSCRIPTION ...
- NO CONTRACT ...

Money Back Guarantee!
